

# THING TO CONSIDER WHEN BLOGGING

- What is the purpose of the blog?
- Who will be responsible for regularly updating the blog?
- What role will children play in adding/creating, postings and content?
- How will you ensure cybersafe practices underpin your blog content?
- How will all teachers become comfortable in using the tools and software?
- What discussions and PD will be required between staff, families and children?
- Will the site be private/public/invite only? And why?
- Who owns the content in your blog?
- What type of content will be posted? What type of content will not be placed on your blog
- How will you ensure permissions have been obtained by all families. How will you ensure those who haven't given permission are not included in posts?
- How will families be fully informed and supported in your blogging journey?
